

JA STOCK MARKET CHALLENGE

Space Coast

The JA Stock Market Challenge is an electrifying, fast-paced simulation that puts high school students in the role of stock traders, immersing them in the excitement and pressure of the financial markets.

Through JA Take Stock in Your Future®, participants gain a deeper understanding of investing, exploring both the benefits and risks of the stock market as part of a long-term financial strategy. The program helps students develop critical skills in financial literacy, decision-making, teamwork, and risk assessment while bringing classroom concepts to life through hands-on experience.

The excitement continues into the evening as business and community leaders gather for a unique networking event featuring food, drinks, friendly competition, and a chance to compete in the same high-energy trading simulation that students experienced earlier in the day.
